Lessons Technology First Grade Qtr.1 stress strong attention to practical typing and the development of essential text processing skills. The first selections will be able to drive typing using the proper home row technique. The first selections will also be able to develop and improve their text processing capacities. They write short sentences with correct spelling, uppercase, punctuation, and word word Students will learn to illustrate their text with shapes, clip art or images. They will learn to correctly size and position objects within the text. Students can learn how to print / save their documents. Recommendations: Typing Lessons: focus on typing accuracy, correct placement finger, not the speed. Speed will naturally acquired over time in the months and years of future typing lessons. Word Processing: Students work in an increase of competence and speed using a word processor to write and illustrate sentences, shapes and images. Students will practice with narrative, informative and writing styles opinion. These are "guided" writing exercises that students copied exactly or very close. In general, this prevents students struggling with the ideas, the indecision, or spelling problems that slow down or prevent the progress to complete. Distribution of files: mapping file shares using a cloud storage service, learning management system at your school or a unit shared network on the internal network of your school. Enrichment: Using enrichment activities to support regular classroom curricula. Good for the winners, à late arrivals, integration, differentiation. Time Management: These weekly classes are scheduled for 2 weekly sessions of 45 minutes each. Adjust your actively selections to suit your needs. First Technology Degree Program Lesson: First Quarter - August ~ October Main Topics: HomeRow Typing and Word Processing (text and images) 9 Sessions = (typing with your fingers into the arm of the house - no typing pecky) 5 sessions = (Word Processing - information and opinion texts - write simple sentences and adding illustrations) Prerequisites: typing program, Internet access, word processor. Week 1 - Trim. 1: Sessions 1 & 2: Do Introductions - Introduction for the teacher computer lab, discuss what we will do in the laboratory. Spend time getting to know the students. Explain the rules of the Computer Lab - Discuss the rules of the computer lab, a speech on how to sit on the chairs, hand raised to go to the bathroom, taking a friend with you to the bathroom, wash hands before returning from the bathroom. Discuss keep their hands to themselves, not running in the laboratory, holding his fingers from his mouth and nose. By following the same rules in a regular class. Review computer parts Names - briefly review the names of the leading computer components such as monitor, keyboard, mouse, CPU, and others, if necessary. Download printable version: can-you-name-these-based computer-parts.pdf Review of Typing Step 1: demonstrate how to use Dance Mat Typing first phase of a level (ASDF, JKL, and G, H). Starts at the beginning of classes if you are using a typing program in machine. Review the HomeRow and proper finger technique. Download: right-keyboard-positioning-finger-on-the-keyboard.pdf Assign skills Typing Practice Students review typing the Kindergarten using one or more of the following: keyboard Zoo, Type Rocket Jr., keyboard Climber type 2 Students about 20 -25 minutes.
