Peter Stiling is professor of biology at the University of South Florida in Tampa. He held courses in ecology, environmental sciences and community ecology, and in 1995 he received a prize for school excellence in these fields. The doctor... Soling earned Ph.D. at University College Cardiff, Wales, and completed post-doctoral research at Florida State University. It was while teaching ecology at the University of Western India in Trinidad that the idea of this book was born. The doctor... Stiling's research interests include plant-insect relationships, parasite-guest relationships, biological control, ecology of restoration and the effects of high CO2 levels on native communities. He has published numerous scientific articles in journals such as Ecology, Oikos and Oecologia and has been editor of Oecologia. His field research was supported by the National Science Foundation, the United States Fish and Wildlife Service, the United States Department of Agriculture and Nature Conservancy. Buku Teks:: Kembali Fler böcker inom Format Häftad (Paperback) SprÅvk Engelska Antal sidor 638 Utgivningsdatum 1998-07-01 Upplaga 3 Forlag Pearson Illustrationer Illustrations (some col.), maps (some col.),ports. Antal komponenter 1 ISBN 9 780 139 156 533 Du kanske gillar Theory and Applications HÅftad Engelska, 1998-07-01 SlutsÅld Introductory text on evolutionary, behavioral, population, community and applied ecology. In this new edition, applied ecology has been fully integrated into the theories of ecology. Prerequisite of introductory biology. Visa hela texten *I. INTRODUCTION:*Why and how to study ecology*II. EVOLUTIONAL AND BIOLOGY OF CONSERVATION:*The diversity of life*Natural selection, Speculation and Species*III. A Competition and coexistence*Publishing of the population*Antibiotic factors*Commercial characteristics* Å that are present in every subdisciplinary of ecology. The text expands the coverage of behavioral ecology and ecosystems, including a chapter on the theory of life history that includes sections on mating systems, sexual intercourse, habitat selection dispersion and age structure. The book also expands materials on abiotic factors to includeDiscussions on factors such as nutrients, soil light, wind pH and salinity. Theories and applications of the ecologiahey there! We are loading your product product Please wait a few seconds. Living in a matrix of predation This thesis was written in the framework of a biomanipulation project in which young people of the year (YOY) pikeperch (Sander lucioperca) were supplied to a Baltic Sea bay to improve the water quality through the...
