Positive Grid BIAS FX 2 Elite Crack is the most accurate, elaborate, and versatile guitar amp model in the world. Its advanced AMP modeling engine captures the warmth and feels of a real tube amp in every aspect, component by component. For starters, the plug-in includes 36 genuine models of the most popular classic and modern amps in rock and roll history. IBAS AMP 2 is the ultimate virtual amp designer, authentically recreating the tone and feel of real tube amps while allowing you to mix and match components to create your ideal amp. Positive Grid BIAS Elite for Windows adds two new custom amp packs to your sound palette. Blues is about clean sticky amps to mid-gain, and Bass brings bass-only amps and speaker cabinets. Add all the custom component options and you will have literally thousands of custom amps at your fingertips. There is nothing else like that! BIAS AMP 2 represents a revolution in virtual amp design, providing the tools to take your ultimate guitar tone anywhere, from the studio to the stage and vice versa. You can use Amp Match to clone the tone from actual hardware or a guitar track or connect to the ToneCloud® to access thousands of custom amps from recording artists and studios or upload your own custom tones to the cloud. Bias Fx 2 Windows Crack you like to access the famous classic and modern amplifiers and effects directly? BIAS FX 2 offers this and much more than an intuitive and fully customizable virtual, bass, or acoustic-electric guitar for Mac and PC. Works as a standalone app and lets you add new sounds and creativity to your game, practice, and jamming - without the need for other software or DAW. The inventory of BIAS FX 2 pedals can be expanded by downloading thousands of shared custom pedals from ToneCloud®, the global social network of Positive Grid players, engineers, and manufacturers. Build Your Own AMP: BIAS AMP gives you the power to create new sounds by designing your own dream amp, allowing you to change tubes, customize preamps, power amps, transformers, tone stacks, multi-microphone capability, and open/closed cabinet, all through one Powerful and Intuitive Photorealistic Interface. Whether you are a classic rocker, a metalhead, a jazz player, a bluesman, or a singer/songwriter, and if you understand how electronic amps work or not, you will be dialing killer, signature tones in an instant. AMP Combines Any Real World Amplifier: AMP Match matches the tone of any mic reference amp, and we've made it even better in BIAS AMP 2 - combining a tone is now as easy as importing an audio file! Not only that, if you're not that familiar with dial-up amps yourself, but you can also ask AMP Match to guess the circuit for you. Or you can download thousands of Amp Match presets directly within the BIAS Amp ToneCloud® online community. Dynamic Response To Touch: For BIAS AMP 2 we work with artists, engineers, and recording studios to improve the already hyper-authentic tactile response of our amplifier circuits. The result is a new gaming experience, with increased tactile and dynamic responsiveness. With new tubes, a transformer, dynamic tone control, and a completely redesigned speaker cabinet module with multiple microphone capabilities, you now have the tools to take your tone scans further than ever. BIAS Meets The Selection: When it comes to speakers, Celestion is the most trusted name in rock and roll history. Its controllers have been used in more classic songs and tones than any other manufacturer, and its impulsive responses are a favorite of guitarists ranging from Pete Thorn and Scott Henderson to George Lynch. We've partnered with Celestion to make your IRs easier to use than ever, so you can forget about uploading individual files. Just select a custom Celestion booth and start moving the microphones - BIAS AMP 2 does the rest. Powerful BIAS Ecosystem: BIAS AMP was designed to integrate directly with BIAS FX, Positive Grid's flagship amp and effect processing software. All custom amps you create with BIAS AMP 2 are automatically available on your BIAS FX, providing a foundation for your ideal final tone. Start with an amp that suits your performance like a glove in BIAS AMP 2, and then open it up in BIAS FX and add pedal and rack effects. It's a revolutionary, seamless workflow that makes it easier than ever to create your own custom shades. ToneCloud Download and share Custom Ringtones: Positive Grid ToneCloud® is more than just a storage tank for your own custom amps: it is an online community where musicians from all over the world can share and discuss tones, for the benefit of all. There are thousands of custom amps on ToneCloud®, loaded by artists, recording studios, and guitarists just like you. Download artist-exclusive amps or try the newest and most popular combo amps created by your fellow guitarists. Key Features: New harmonization, fuzz, and time modelers take your recordings and live performances beyond the usual limits. With BIAS FX 2's advanced modeling suite, you can create vintage and modern fuzz pedals for more grain and sustain, time-based effects for more depth, and instantly create ensemble leadlines with multiple voices. Eight all-new BIAS FX 2 elite crack processors - EchoreX HD, Tri-Chorus, Tube Compress, Spring Reverb, Wah, and more - ensure your project looks like state-of-the-art studio high-resolution output. Give your sound perfect shape with advanced DSP emulation in the new Echorec Drum Delay, multiband tube compressor, and rotary speaker. A high-end collection of new and reworked racks gives your guitar and bass sounds unprecedented depth and breadth. Each model is modeled at the component level with great attention to detail. We have teamed up with Celestion, the most trusted name for guitar speakers. Celestion drivers have been used for killer guitar sounds on more classic songs than any other brand. His impulse responses (IR) are the favorites of guitarists from Pete Thorn and Scott Henderson to George Lynch. Forget about loading individual files - just choose a custom Celestion booth and move the virtual microphones. BIAS FX 2 does the rest Forget about the endless chase and paying for additional presets to expand your collection of guitar sounds. You get direct access to over 50,000 custom amplifier, pedal and pedal presets that are shared by the ever-evolving ToneCloud® online community. There is no need to open any other software. But why stop there? With BIAS FX 2, you can easily add a hot rod to your distortion, delay, and modulation pedals using the fully integrated BIAS pedal software included in BIAS FX 2 Elite, and create pedals and sound that no one others did. When inspiration strikes, you won't have to go on a hunting expedition to find the perfect patch. With tags and keywords attached to all presets in ToneCloud®, it's now much easier to quickly find and download the right preset to keep the creative juices flowing. New sounds inspire new riffs and songs. You'll never have writer's block with BIAS FX 2. Over 200 new factory pedalboard presets created by world-renowned artists, studio engineers and session players get your mojo cranking. Whether you're an aspiring guitarist or an experienced pro, BIAS FX 2 makes it easier than ever to create instant song transitions, mind-blowing FX changes and ear-catching mixes—in the studio and onstage.
